

Reason Versus Belief –

SCIENCE APPLIED To The WTC COLLAPSES

*Kansas City's Uptown Theater Boldy Presents
Noted Research Scientist and Author Jim Hoffman*

Saturday September 2, 2006

Science Applied To The WTC Collapses

TWO Presentations: 1:00-2:30 p.m. and 7:00-9:00 p.m

The Uptown Theater 3700 Broadway, Kansas City

Admission: \$8.00 Donation

A Q&A Session will follow the presentation. Invitations to *Science Applied to the WTC Collapses* are being formally extended to dozens of area structural engineers, physics professors, political science professors, citizen's representatives and various public supporters of the official 9/11 investigation physical science conclusions.

Independent research scientist Jim Hoffman will discuss the official investigations of 9/11, including the Official 9-11 Commission Report, NIST and FEMA Reports, with special focus on physical evidence issues.

Jim Hoffman is a research scientist, mathematician, software engineer, author and inventor. Hoffman's work has been featured in articles in Science News, Scientific American, and Nature. He has co-authored papers in Science and Macromolecules and is the creator of websites **911Research.com**, **911Review.com**, **WTC7net**, **Science911.org**, and co-author of *Waking Up from Our Nightmare*.

A slide presentation will examine the official explanation of the collapses of the World Trade Center Twin Towers and Building 7, with special attention to NIST's recent report. It will then examine the physical characteristics of the buildings' destruction, and will evaluate the demolition hypothesis using inductive and deductive methods.
